

THE IRON AGE.

There is a stove "that's all the rage," the name of which is the "Iron Age." This stove is the favorite one, and because it was "Bolted" in the market, it was.

Our competitors claim the stove is light weight, the "best" of the name we can prove as we state: The stove is large, the castings are fine, the reservoir is of the finest design.

The stove's even doors are lined with tin, to keep house without one would be a great sin; The stove front looks so cheerful and bright, experience has taught us the stove is all right.

Compare the weight then with the price, See that the doors are fitted tight; The wood which burns upon a grate Furnishes coals for "boiling beefsteak."

Now if you wish to invest In a stove that will always prove a success, Be sure to get the Iron Age, Before purchasing a stove of inferior grade.

"I think this will do: What say you?" The stove is the proof of it all; Then when you're in town please call around And see that our story is true.

This Stove has a large Oven, a Mica Front, the handsomest and most ingenious Reservoir ever put on a stove, isn't equalled in broiling, has very heavy plates which are closely fitted, and is in every way a first-class Stove. Call and see it.

Preaching.
Rev. Dr. Newton, of Norwalk will preach at the First Presbyterian Church on next Sabbath.

"How is Your Cold?"
Is a daily enquiry passing among friends—for be it known, but few are without one, and happy are those who have tried BUCKLAND'S "TULIP & WILD CHERRY BALSAM"—a cheap but, certain relief every time. Try a bottle.

Personal.
Mr. and Mrs. Chris Hone started on Wednesday evening for Jacksonville Florida, where they expect to spend some time. They go by way of Huntsville Ala., thence to Pensacola, thence to Jacksonville, and will return via New York some time in May or June.

Good for the East Side.

Another Old Settler Gone.
A Mrs. Fitzgerald, mother-in-law to Mr. Joseph Strausbaugh, of the East Side, and formerly for many years a resident of Seneca county, died at an advanced age, on Sunday last, at the residence of her son-in-law. The funeral took place on Tuesday at Oakwood cemetery.

Music--Music.
Do you wish to change your organ or piano, or do you think of getting a new one this spring? In either case first drop a line to, or call on C. H. Ross, 131 Summit street, Toledo. He is a capital fellow to do you justice every time, and has a special line of instruments besides all the latest and choicest book and sheet music. In fact, there is nothing but what he can supply in the way of music.

Lost the Best Half.

On Friday last, as Mr. Eugene Sherwood, brother of Norman Sherwood, of our post office, was passing down the Front street, at Fostoria, between 9 and 10 P. M., some person or persons knocked him down, extracted nine dollars from one of his pockets and dumped. Eugene had, however, much more money in a pocketbook in another pocket, but this the thieves overlooked. We would remark that to repeat the experiment for the balance would be poor policy.

Now is the Time.

For the newest—the neatest—the richest, and most wall paper and paints, to re-decorate your houses, now is the time to make your selections. Call on BUCKLAND & SONS, Front street, and you will find everything novel and charming to the eye. They have this season one of the finest stocks ever brought to the city and are effecting a free sale each day at lowest figures. They have also a very large and choice stock of paint and whitewash brushes, very cheap, besides all kinds of oils, pure leads, putty, glass, &c. Loss no time in selecting.

Handsome Wedding Gifts.

We, last week, referred to the fashionable wedding of our young friend, Dr. Frank Crager, to Miss Clara Moore, of Ballville, but the nuptials being celebrated on the day we went to press, we could not glean full details in reference to the occasion. In proof of the high regard in which the happy pair are held in this community, we append a list of the wedding presents of which they were made the recipients previous to their departure on their wedding tour. They were as follows—Silverware: Presented by Mr. J. Ford, of the Ball House; butter dish and sugar bowl combined, and knife, Cousin D. Moore; cake dish, Cousin Chas. Moore, pastor. Aunt E. Justice, tea bell. Cousin E. Tindall, carving knife holder. Cousin M. Everett, sugar spoon. Mrs. Snyder, pair napkin rings. C. Staumyer, card receiver. Mother E. Moore, butter dish and knife. Moll Moore, one doz. napkins. Pit and E. Tyler, fruit dish. Cousin E. Failing, Letter back. Cousin W. J. Rice, bed spread. Ella Dean, toilet mat. Sister, Ella Moore, fruit dish. Cousin J. Speller, lace handkerchief.

In the evening they left by the 10:15 train and were escorted to the depot by the empire band, the boys entertaining them with a number of excellent pieces on the platform previous to their departure, and the happy pair left in due course with the heartiest congratulations we may truthfully assert of every one who possessed their acquaintance.

The Weather.

Who shall say when the present spring season will really set in—we mean in the matter of weather? The continued snows, rains, frosts and storms afford little consolation. Though Friday last fair promise, which Saturday partly confirmed, that "Old Sol" was really going to settle down to business, on Sunday morning matters took quite a change. About four o'clock there was scarcely a cloud visible. Sheet lightning commenced to flash from west to east, and increased in its intensity to 5.30, when

A STORM STRUCK UP.

The wind blew strong from the south west and heavy thunder claps commenced to alternate with the dancing flashes of lightning, which at intervals appeared to light the whole horizon. One clap of thunder, in particular, about 6.15 a. m., seemed to make almost every house vibrate, and bidding "sleepers awake" struck terror into the minds of many. The rain, for a brief time, fell sharply, and altogether the morning was such as to inspire serious apprehensions that subsequent reports would disclose more than.

ONE SERIOUS CAUTION.

We learn that the electric fluid struck a fine barn owned by Mr. Peter Munich, farmer, residing near Hessville, and passing two horses struck a third down dead instantly, while it ignited the litter and hay near to it. The building was soon in flames, and burned down, destroying also some 200 to 300 bushels of grain. We understand, however, it was insured with the Ohio Farmer's Insurance Company. This should be a moral lesson to other farmers not to be too penurious, as they are in many instances, when objecting to a trifle to protect them from the effects of lightning.

THE IMMENSE BODY OF ICE.

Which usually floats down the river about this season from Seneca county, and is looked for with some little anxiety, came in quite a body from 12.30 to 2 o'clock on Monday morning, and passed along very quickly under the bridge crossing to the east side. We hear, however, that the immense gorge took off over half of Moore's dam, and part of a top stringer from Moore & Dean's dam, also injuring a flume at their mill. It is said that about 100 acres of low lands in Ballville township are under water, and the road from J. Moore's to B. W. Lewis is for a second time this season, blocked with ice several feet thick.

LATER INFORMATION.

On Monday afternoon the wind again departed.

arose, and between four and five o'clock, a portion of the tin roof over Mr. Andrew Osh's carriage shop was taken completely off and part fell on State St. the remainder coiling up in a heap and adhering to one portion of the roof. A team standing on State street, belonging to Mr. Turvey, a farmer living on the Pike, took fright but only ran a short distance when they were caught; only a trifle of the wagon being broken.

To Actual Settlers at Syracuse, Ind.

For twenty-five (\$25) dollars I will give a warranty deed of a lot 50x150, conveniently located, on the property known as the "Skinner Farm" between the new depot and the "Huntington Road," with only these conditions, viz. That the purchaser shall improve the lot or lots, so conveyed, by a house or store, to cost not less than \$500; such improvements to be commenced on or before April 15th, 1875, and completed in a reasonable time thereafter.

Further, on condition of the purchaser erecting a dwelling or store to cost not less than \$1,500—the conditions and size of lot to be as above mentioned—I will give warranty deed for the sum of one (\$1) dollar and cost of transfer. Purchase money to be paid on delivery of deed. This proposition to remain open until the 15th day of April, 1875. Corner lots reserved.

For further information apply to Geo. Crocker, LaPorte, Ind., or H. L. Crittenden, ag't B. & O. R. R., Syracuse, Indiana. 12-13

Notice.

The annual re-union of the 73d Reg. O. V. I., which was to have been held at Fremont, O., April 6th 1875, has been postponed until June 17th 1875.

R. P. BUCKLAND, Pres't.

S. A. J. SYDNEY, Secy. 12-13

A \$4.00 BOOK FOR \$1.50.

The people's Common Sense Medical Adviser, in plain English, or Medicine Simplified: By R. V. PIERCE, M. D., Counselor-in-Chief of the Board of Physicians and Surgeons, at the World's Dispensary, Buffalo, N. Y. The above Work—a book of about nine hundred large pages, profusely illustrated with Wood Engravings and Colored plates, and well and strongly bound—will be sent, post paid, to any address, for One Dollar and Fifty Cents—making it the cheapest book ever offered to the American People. Other books treating of domestic medicine, of like size and style of binding, and not nearly as well illustrated, with no colored plates, and some of them containing no prescriptions and making known no means of self-cure for the diseases which they discuss, sell for from three dollars and a half to five dollars. Were Dr. Pierce's Work not published by the author, printed and bound with his machinery, and were it sold through agents, as other like works are, the price of it would have to be not less than four dollars. For when the publisher pays the author a fair price for his production, then adds a profit to his investment large enough to satisfy himself and compensate him, not only for his labor, but also for the risk of pecuniary loss which he assumes in taking the chances of the enterprise proving a success, and when the State, County and canvassing agent has each received his profit, they have added to the expense of a book, that originally cost about \$1.25, so much that the people have to pay not less than \$4.00 for it. The People's Medical Adviser, on the contrary, is placed within the pecuniary reach of all classes by the author, who adopts the plan of the Dispensary, dispensing with middle men and giving the benefit of their profits to the people, offering his book at price little above the actual cost of publication. That those desiring the book may run no risk of losing their money in sending it through the mails, the author advertises that money addressed to him at Buffalo, N. Y., and inclosed in registered letters, may be at his risk of loss. The author's large correspondence with the people upon medical matters, which we are credibly informed, frequently exceeds three hundred letters a day, and requires several trained and skillful medical assistants and short-hand reporters to enable him to entertain and answer them, as well as his large daily dealings with disease at the World's Dispensary, appear to have peculiarly fitted him for writing the Work, by rendering him very familiar with the every day medical needs of the people. He endeavors in this Work to answer all the numerous questions relating to health and disease that have been addressed to him by the people from all parts of the land, and hence it contains important information for the young and old, male and female, single and married, nowhere else can be found. All the most prevalent diseases of both sexes are also plainly and fully considered and means of self-cure made known. Unlike other works on Domestic Medicine, it includes the subject of Biology, Cerebral Physiology, Hygiene, Temperaments, Marriage, Reproduction, etc., all of which are treated in an original and interesting manner. It is a compendium of Anatomical, Physiological and Medical Science, and embodies the latest discoveries in each.

On Monday afternoon the wind again departed.
